Notes:

- Patients with high symptoms but low XTT may be exhibiting reactions that are not related to toxic load. Other mechanisms should be considered, such as inflammation/immune/allergy, gastrointestinal dysfunction, oxidative stress, hormonal/neurotransmitter dysfunction, nutritional depletion, and/or mind body. Individualize support with specific medical foods, diet, and/or nutraceuticals.
- Recommend non-alkalizing nutrients if patient answers "yes" to any questions in the Alkalizing Assessment.

SCREEN. TREAT. HEAL.

Our relationships and experiences—even those in childhood—can affect our health and well-being. Difficult childhood experiences are very common. Please tell us whether you have had any of the experiences listed below, as they may be affecting your health today or may affect your health in the future. This information will help you and your provider better understand how to work together to support your health and well-being.

Instructions: Below is a list of 10 categories of Adverse Childhood Experiences (ACEs). From the list below, please place a checkmark next to each ACE category that you experienced prior to your 18th birthday. Then, please add up the number of categories of ACEs you experienced and put the *total number* at the bottom.

Did you feel that you didn't have enough to eat, had to wear dirty clothes, or had no one to protect or take care of you?	☐
Did you lose a parent through divorce, abandonment, death, or other reason?	☐
Did you live with anyone who was depressed, mentally ill, or attempted suicide?	☐
Did you live with anyone who had a problem with drinking or using drugs, including prescription drugs?	☐
Did your parents or adults in your home ever hit, punch, beat, or threaten to harm each other?	☐
Did you live with anyone who went to jail or prison?	☐
Did a parent or adult in your home ever swear at you, insult you, or put you down?	☐
Did a parent or adult in your home ever hit, beat, kick, or physically hurt you in any way?	☐
Did you feel that no one in your family loved you or thought you were special?	☐
Did you experience unwanted sexual contact (such as fondling or oral/anal/vaginal intercourse/penetration)?	☐
Your ACE score is the total number of checked responses	

Do you believe that these experiences have affected your health? ◯ **Not Much** ◯ **Some** ◯ **A Lot**

Experiences in childhood are just one part of a person's life story.
There are many ways to heal throughout one's life.
